CHARITY WORK COSTS HOSPITAL \$6,543 IN LAST THREE MONTHS

Charity service, in excess of the state appropriation for free hospital care, cost the Annie M. Warner hospital \$6,543.90 during June, July and August despite the fact that the three months were among the busiest summer months in the history of the hospital.

A total of 1,021 patients were admitted during the three months. The average number of patients in the 90-bed hospital totaled 75 in June, 79 in July and 71 in August. Births aggregated 209 in the three-month period, 109 male and 100 female babies.

Campaign Brings \$12,224
Cash receipts during the three months period totaled \$68,320.82 while expenditures were \$70,552.92 which reduced the cash on hand from \$7,522.49 on June 1 to \$2,290.79 on August 31—a decrease of \$5,231.70.

Receipts from the letter campaign, which provide the funds to meet the operating deficit of the hospital, were reported to have totaled \$12,224.34 by September 28 for the year which began December 1, 1949. This total came from 5,633 contributions which were in response to 11,097 letters that were mailed to residents of Adams county.

Last year, in the same 10-month period, 5,331 contributions in response to 10,601 appeals brought contributions of \$13,122.29.

Adopt Insurance Plan
Richard Livingston, New Oxford, second vice president, presided over the meeting in the absence of President Carl A. Baum and First Vice President John A. Hauser, Biglerville. Directors in attendance included Howard Musselman, Orrtanna; Roy E. Starny, York Springs; John Bream, Cashtown; William Sheeringer and Wilbur Bankert, Littlestown; C. P. Keefer, New Oxford; Joseph E. Codori, H. Harold Miller, Philip M. Jones, William Durbow, Henry M. Scharf and Dr. Frank H. Kramer, all of Gettysburg.

The directors voted unanimously to place the employees of the hospital under Old Age and Survivors' Insurance protection, in accordance with the amended social security law which will become effective January 1, 1951, provided the necessary two-thirds of the employees of the hospital signify their desire to receive this protection. The new law provides that exemption of employees in charitable, educational and religious institutions may be waived if the employer and two-thirds of the employees petition the Social Security board for inclusion in the coverage. Under this plan the hospital and the employees each will contribute one and one-half per cent of wages up to \$3,600 annually.

Report On Expansion Plans
The board approved two recommendations of the medical staff. The first provides for automatic suspension from the medical staff for failure, on the part of the doctor, to file complete charts on all cases within 30 days after discharge from the hospital.

The second amended the staff by-laws to require membership in the county medical society as a requisite for membership on the hospital staff. Previously the requirement was only eligibility for membership in the county society.

ARENDSVILLE FOLK THANKED BY FILM HEAD

An open letter to the residents of Arendtsville from Dr. James K. Friedrich, president of Cathedral Films, was forwarded today by Henry Endress, secretary of stewardship for the United Lutheran Church in America.

In a letter to the Gettysburg Times Mr. Endress noted that the letter from Doctor Friedrich arrived the day after the premiere of the film, "For Good or Evil" was held at the South Mountain fair auditorium.

The letter follows in full:

The Good People of Arendtsville: Dear Friends:

Nothing would have pleased me more than to have joined with you in your preview of the film *FOR GOOD OR EVIL*. We are happy with the picture and one of the primary reasons for its being a good picture is due to the splendid cooperation and enthusiastic help that you gave us when our company recently descended upon your community for the purpose of producing the picture. This film is a splendid example of Christian fellowship.

I was particularly disappointed not to be able to get back at the time the picture was being made, especially since Mr. Endress and Mr. Coyle have told me about the friendly spirit of your community. I sincerely hope you will feel this picture has been worth all the trouble that it caused your city and that you will bear in mind that as it is shown in churches of all faiths throughout the land, you have played an important part in bring a Christian message desperately needed by the church today in a way and manner that will not be misunderstood. Yes, Arendtsville can be proud of its contribution to Christian stewardship and the church is grateful to you for your magnificent effort and help.

Sincerely,
CATHEDRAL FILMS, INC.

SOROPTIMISTS MARK 29TH YEAR

Gettysburg Soroptimist club members will celebrate the 29th anniversary of the establishment of the first Soroptimist club at their meeting Tuesday, October 10, by paying 29 cents each into the treasury of the organization.

The 29 cents per member will represent a penny for each year that Soroptimist clubs have been in existence. Mrs. Elizabeth Hennig, president of the local club, said today.

The pennies will go toward the American federation fellowship fund, which is used for international fellowships to enable women to continue advanced study in unusual fields. The first fellowship was awarded Dr. Dora Papara, of Greece, who spent a year at the University of Pennsylvania to study neuropsychiatry in children. Another fellowship has been awarded a French woman to do research in group dynamics at the University of Michigan and a New Hampshire girl was awarded a fellowship to do social work studies in Scandinavian countries.

As part of the "Founder's Week" program of the Soroptimists next week, Mrs. Hennig will speak over Radio Station WGCT next Friday at 12:05 on the history and background of the organizations comprising the Federation of Soroptimist clubs. The first Soroptimist club was chartered in Oakland, Calif., 29 years ago on October 3, 1921, by a group of civic-minded executive women interested in being of service to their community. The local Soroptimist club will celebrate its own 12th birthday in November.

MRS. EBERHART AGAIN HEAD OF CIVIC NURSE UNIT

Mrs. George F. Eberhart was re-elected president of the Civic Nursing association of Gettysburg at the annual meeting of the organization Friday afternoon at the YWCA.

Other officers renamed included Mrs. Ralph R. Gresh, first vice president; Mrs. Guyon R. Buehler, second vice president; Mrs. W. H. Danforth, secretary, and Mrs. Frank H. Kramer, treasurer. Renamed as directors were Mrs. E. J. Bowman, Rev. Wallace Fisher, Mrs. J. T. Fogle, Mrs. E. S. Lewars, Miss Anna Reck, Mrs. Clyde Stover, Miss Anna McSherry and Mrs. Milton Remmel. Named as new members of the board of directors were Mrs. Donald E. Myers and Attorney Donald M. Swope.

The nominating committee, which presented the report, included Mrs. Elizabeth Hennig, Mrs. Roy Wentz and Mrs. Henrietta Blocher.

Tribute To Nurses
President Eberhart's report revealed that the nurses of the 38-year-old organization during that period have made 49,000 visits to minister to the sick in the borough.

"For the success of our organization," she added, "chief credit is due to the nurses we have had. Miss Kate Briel and Miss Mary Grove won the confidence of the community by their services during the first 13 years, and Mrs. Fogle, who succeeded them, held the same confidence for 21 years. Mrs. Clara Bushey, who served for nearly three years, and Mrs. Julia Holtzworth have provided the same kind and efficient service."

Mrs. Holtzworth was re-elected as nurse at the same salary of \$1,500 per year plus \$120 for expenses.

430 Calls In Year
During the past year the report showed, the nurse made 430 calls and collected approximately \$400 for her services.

Mrs. Eberhart noted that the organization carries on its service through a grant of \$1,000 yearly from the Community Chest, plus the interest from \$2,900 in bonds plus the sums paid to the nurse by persons whom she aids.

Mrs. Buehler was named as chairman of a committee, to be selected by her, to revise the by-laws and constitution of the organization. Plans were made to hold quarterly instead of semi-annual meetings in the future.

Insurance Brings Changes
The organization voted to pay \$1.50 per month toward the phone bill of the civic nurse. It was pointed out that only by paying the business rate can the telephone be put in the name of the Civic Nursing Association and be given that listing with the operators. The business rate was listed as \$3.75, while the present rate of the phone in Mrs. Holtzworth's name is \$2.25 per month. The association will pay the difference.

Hospitalization insurance has caused a change in the work of the civic nurse, it was noted. Where much of her work previously involved care of patients who were bedfast for some time, now usually that type of patient goes to the hospital. While a large proportion of the care involves those ill at their homes, most of the work consists of giving "shots" and that type of work for patients who are convalescing from hospitalization.

The nurse is available, it was pointed out, to all in Gettysburg and its adjacent territory—the area covered by the Community Chest—to provide home nursing care. When a call is made the nurse leaves a rate card. Those who can afford to pay are asked to do so, to help the work. Those who cannot afford it are under no obligation to pay. Most of the work of the nurse during the past year came at the request of doctors who asked her to aid in the care of their patients.

OFFER SCHOOLS SURPLUS GOODS

Adams county schools again this year are being given the opportunity to purchase surplus war property at a cost of five cents a pound, plus transportation costs. Richard C. Lighter, director of surplus war property for the county announced today.

He urged schools to notify him of articles they would like to purchase under the school plan for securing surplus war materials as soon as possible. On October 19 a committee of school representatives will go to Indiantown Gap to select the items requested by the various educational agencies in the county.

A truck will deliver the property to Gettysburg on that date and schools will be notified when and where to report for their share of the property.

Lighter noted that schools should put anything they want into the list, because in previous years nearly

Report MacArthur Will Ask Surrender By North Koreans

Tokyo, Sept. 30 (AP)—Authoritative sources said today General MacArthur will call upon the North Korean government to surrender in a broadcast statement of his terms tomorrow.

The broadcast, in the Korean language, will be made in the general's name. They are scheduled to begin at noon and are to be repeated regularly.

The sources did not reveal the terms which MacArthur would offer. Presumably they will be strong and broadcasts may call for unconditional surrender.

There is evidence that North Korean officials listen regularly to Tokyo broadcasts and it was expected they would hear the surrender broadcasts. Radio facilities

News Collected At Random

If Eugene Sickles' resignation as fire marshal and health officer is accepted, Gettysburg will lose one of its most faithful and conscientious employees.

During his service as fire marshal, Mr. Sickles has sought to rid Gettysburg of the many fire hazards that have existed here for a long time. He has performed his duties without fear or favor and his painstaking efforts have been fruitful of beneficial gains which have been notable improvements in the community.

During his brief service as health officer, he has also served well. In promoting strict health rules, he has corrected an evil of long standing in garbage collecting vehicles, refuse receptacles and nuisances in the community. He has been persistent in his efforts to eliminate health nuisances and fire hazards regardless of where they exist.

A number of citizens are hopeful that Mr. Sickles may be prevailed upon to continue in his duties.

ASK CHURCHES TO OBSERVE PENNA. WEEK

A letter sent to all clergymen in the county today by the church committee for Pennsylvania Week, asked the priests and ministers to give recognition to Pennsylvania Week in services during the period.

The committee, comprising the Rev. Wallace E. Fisher, chairman, Rev. Clyde R. Brown, Rev. Fr. Anthony P. Kane and Rev. Henry B. Reiley noted:

"Properly, the major part of the responsibility for the celebration of Pennsylvania Week October 16-21 falls upon schools, industries, etc., but the church—with propriety—can and should participate also.

"Remembering that Pennsylvania was Penn's Holy Experiment, that religious freedom was broadly accomplished here before most colonies had escaped religious bigotry and that our state today is the seat of scores of different churches and sects ranging from Greek Orthodox and Roman Catholic and Presbyterian to the Friends and the 'Plain People,' we ought to take dignified notice of our state's stature.

"Therefore, we commend these possibilities to your thoughtful attention: a sermon which considers the significance of religious freedom in the 17th century and now in the 20th century; a sermon which considers the significance of Penn's advocacy of Christian brotherhood—its salutary impact on the colony's establishment and its need today; a sermon which calls the Christian's attention to his civic responsibilities in a free society; recognition of the above and other factors in the general or pastoral prayer; recognition of the above and other factors in your October 8 and 15 bulletins and weeklies; cooperation with your local schools in the presentation of suitable speakers, historical pageants, etc.

"Finally, we are confident that your good, Christian judgment and civic-mindedness will contribute to a memorable Pennsylvania Week in 1950."

Gardners Trucker Escapes Injury

The drivers of two trucks and an automobile escaped injury Friday in an accident at New Kingston, Pa. State police reported that John Milten, West Chester, stopped his truck on the north side of the pike before making a left turn into the parking lot at the camp. He pulled out in front of a car driven by Ivan Sowers, Gardners R. 2, who was unable to stop. His car struck the left side of the truck. A truck following Sowers, operated by Robert W. Fink, York, went off the left side of the road and struck a gasoline sign.

Police estimated the damage to Sowers' car at \$600 and \$300 to Milton's truck. Fink's truck was damaged to the extent of \$40.

Tokyo, Sept. 30 (AP)—The Pusan radio reported at 7 p.m. tonight (5 a.m. EST) that the South Korean assembly today unanimously approved a message requesting the United Nations forces to cross the 38th parallel.

Tokyo, Sept. 30 (AP)—Artillery and planes carried the fight today to an estimated 100,000 Reds massing for defense of North Korea. South Korean troops awaited orders to cross parallel 38.

One Republic division already was at the 38th parallel on the east coast and three other South Korean divisions were within a quick march of it. Plans have been completed for a drive against the Red capital of Pyongyang, a South Korean army spokesman said.

100,000 Reds Concentrated
If the Republic's army chief of staff gives the word, the war will be carried into Red-held territory for the first time since Communist aggressors crossed it in their June 25 invasion of South Korea.

AP Correspondent Lelf Erickson, from a U.S. Fifth Air Force plane, watched South Korean artillery shells burst on Red positions in hills along the artificial boundary.

B-29 light bombers Saturday swept over the border to Chorwon, reported headquarters of the Red army, to bomb and strafe an estimated 100,000 Communists believed to be concentrated there. Chorwon is 16 miles north of the border—but on the western side, 48 air miles north of liberated Seoul.

U.S. Troops Near Border
Northwest of Seoul, U.S. troops advanced within 24 miles of the 38th parallel. The troops, 167th airborne regimental combat team, sought to clean out Reds in the Kumpo peninsula between the Han river and the Yellow sea.

A U.S. Navy summary said a party from the British Cruiser Ceylon landed more than 100 miles northwest of Seoul on the island of Taechong, within 10 miles of the 38th parallel. The British reported the Reds had evacuated the island.

The Red radio withheld from North Koreans the news that the war is over in South Korea for the defeated Communist army. Instead, it reported "fierce street battles" in Seoul—where General MacArthur turned over civil control Friday to the Republic's president, Syngman Rhee. For the rest of Korea, the Red communique summarized: "On all fronts, units of the people's army continue to wage bitter battles against American troops."

The sound of battle still rang in the ears of Seoul's dazed citizens as they strove to resume normal living in the war-ravaged 500-year-old capital. AP Correspondent O. H. P. King said the thunder of guns sounded close to the northeast for two hours Saturday morning.

GARDENERS CALL ON TIMES FARM EDITOR

With a busy harvest season now drawing toward its close for this year, numerous Adams county gardeners are realizing the benefits derived from advice received from Dan P. Van Gorder, The Gettysburg Times agricultural editor.

One Times reader had trouble with his brussels sprouts, during the dry weather in late August. "I planted some and set them out, and they are doing fine in spite of the dry weather, except that they don't seem to get little heads," he wrote Mr. Van Gorder.

"What to do" in this case was supplied in a personal letter to the Times reader.

Other readers have asked for instructions on strawberry planting, care of nut trees, how to grow cyclamens indoors and advice on a multitude of horticultural and agricultural subjects.

A coupon published in The Gettysburg Times offering free a copy of Van Gorder's sweet corn ear worm control directions brought many requests.

"This simple remedy," wrote Van Gorder, in reply to the queries, "is not only inexpensive and effective, but is entirely safe and free of the dangers usually incurred when poisons are used for this purpose."

Mr. Van Gorder is ready to answer any and all questions relating to these and similar subjects, if the requests are directed to him by letter, with a three cent stamp enclosed for return postage, to The Gettysburg Times agricultural editor, Box 1528, Washington 13, D. C. "If there are any questions you wish to ask on these or other farm, orchard, garden and lawn subjects, continue to call on us whenever we can assist you," Van Gorder writes those who seek his advice.

CHARITY WORK COSTS HOSPITAL \$6,543 IN LAST THREE MONTHS

Charity service, in excess of the state appropriation for free hospital care, cost the Annie M. Warner hospital \$6,543.90 during June, July and August despite the fact that the three months were among the busiest summer months in the history of the hospital.

A total of 1,021 patients were admitted during the three months. The average number of patients in the 90-bed hospital totaled 75 in June; 79 in July and 71 in August. Births aggregated 209 in the three-month period, 109 male and 100 female babies.

Campaign Brings \$12,224
Cash receipts during the three months period totaled \$65,320.82 while expenditures were \$70,552.52 which reduced the cash on hand from \$7,522.49 on June 1 to \$2,290.79 on August 31—a decrease of \$5,231.70.

Receipts from the letter campaign, which provide the funds to meet the operating deficit of the hospital, were reported to have totaled \$12,224.34 by September 28 for the year which began December 1, 1949. This total came from 5,553 contributions which were in response to 11,097 letters that were mailed to residents of Adams county.

Last year, in the same 10-month period, 5,931 contributions in response to 10,601 appeals brought contributions of \$13,182.29.

Adopt Insurance Plan
Richard Livingston, New Oxford, second vice president, presided over the meeting in the absence of President Carl A. Baum and First Vice President John A. Hauser. Bigler, directors in attendance included Howard Musselman, Orrtanna; Roy E. Stary, York Springs; John Bream, Cashtown; William Sneeinger and Wilbur Bankert, Littlestown; C. P. Kefer, New Oxford; Joseph E. Codori, H. Harold Miller, Philip M. Jones, William Durborow, Henry M. Scharf and Dr. Frank H. Kramer, all of Gettysburg.

The directors voted unanimously to place the employees of the hospital under Old Age and Survivors' Insurance protection, in accordance with the amended social security law which will become effective January 1, 1951, provided the necessary two-thirds of the employees of the hospital signify their desire to receive this protection. The new law provides that exemption of employees in charitable, educational and religious institutions may be waived if the employer and two-thirds of the employees petition the Social Security board for inclusion in the coverage.

Under this plan the hospital and the employees each will contribute one and one-half per cent of wages up to \$3,600 annually.

Report On Expansion Plans
The board approved two recommendations of the medical staff. The first provides for automatic suspension from the medical staff for failure, on the part of the doctor, to file complete charts on all cases within 30 days after discharge from the hospital.

The second amended the staff by-laws to require membership in the county medical society as a requisite for membership on the hospital staff. Previously the requirement was only eligibility for membership in the county society.

ARENDSVILLE FOLK THANKED BY FILM HEAD

An open letter to the residents of Arendtsville from Dr. James K. Friedrich, president of Cathedral Films, was forwarded today by Henry Endress, secretary of stewardship for the United Lutheran Church in America.

In a letter to the Gettysburg Times Mr. Endress noted that the letter from Doctor Friedrich arrived the day after the premiere of the film, "For Good or Evil" was held at the South Mountain fair auditorium.

The letter follows in full:
The Good People of Arendtsville: Dear Friends:

Nothing would have pleased me more than to have joined with you in your preview of the film FOR GOOD OR EVIL. We are happy with the picture and one of the primary reasons for its being a good picture is due to the splendid cooperation and enthusiastic help that you gave us when our company recently descended upon your community for the purpose of producing the picture. This film is a splendid example of Christian fellowship.

I was particularly disappointed not to be able to get back at the time the picture was being made, especially since Mr. Endress and Mr. Coyne have told me about the friendly spirit of your community. I sincerely hope you will feel this picture has been worth all the trouble that it caused your city and that you will bear in mind that as it is shown in churches of all faiths throughout the land, you have played an important part in bringing a Christian message desperately needed by the church today in a way and manner that will not be misunderstood. Yes, Arendtsville can be proud of its contribution to Christian stewardship and the church is grateful to you for your magnificent effort and help.

Sincerely,
CATHERINE FILMS, INC.

SOROPTIMISTS MARK 29TH YEAR

Gettysburg Soroptimist club members will celebrate the 29th anniversary of the establishment of the first Soroptimist club at their meeting Tuesday, October 10, by paying 29 cents each into the treasury of the organization.

The 29 cents per member will represent a penny for each year that Soroptimist clubs have been in existence. Mrs. Elizabeth Hennig, president of the local club, said today.

The pennies will go toward the American federation fellowship fund, which is used for international fellowships to enable women to continue advanced study in unusual fields. The first fellowship was awarded Dr. Dora Papara, of Greece, who spent a year at the University of Pennsylvania to study neuropsychiatry in children. Another fellowship has been awarded a French woman to do research in group dynamics at the University of Michigan and a New Hampshire girl was awarded a fellowship to do social work studies in Scandinavian countries.

As part of the "Founder's Week" program of the Soroptimists next week, Mrs. Hennig will speak over Radio Station WGCT next Friday at 12:05 on the history and background of the organizations comprising the Federation of Soroptimist clubs. The first Soroptimist club was chartered in Oakland, Calif., 29 years ago on October 3, 1921, by a group of civic-minded executive women interested in being of service to their community. The local Soroptimist club will celebrate its own 12th birthday in November.

MRS. EBERHART AGAIN HEAD OF CIVIC NURSE UNIT

Mrs. George F. Eberhart was re-elected president of the Civic Nursing association of Gettysburg at the annual meeting of the organization Friday afternoon at the YWCA.

Other officers renamed included Mrs. Ralph R. Gresh, first vice president; Mrs. Guyon R. Buehr, second vice president; Mrs. W. H. Danforth, secretary, and Mrs. Frank H. Kramer, treasurer. Renamed as directors were Mrs. E. J. Bowman, Rev. Wallace Fisher, Mrs. J. T. Fogle, Mrs. E. S. Lewars, Miss Anna Reck, Mrs. Clyde Stover, Miss Anna McSherry and Mrs. Milton Remmel. Named as new members of the board of directors were Mrs. Donald E. Myers and Attorney Donald M. Swope.

The nominating committee, which presented the report, included Mrs. Elizabeth Hennig, Mrs. Roy Wentz and Mrs. Henrietta Blocher.

Tribute To Nurses
President Eberhart's report revealed that the nurses of the 38-year-old organization during that period have made 49,000 visits to minister to the sick in the borough.

"For the success of our organization," she added, "chief credit is due to the nurses we have had. Miss Kate Briel and Miss Mary Grove won the confidence of the community by their services during the first 13 years, and Mrs. Fogle, who succeeded them, held the same confidence for 21 years. Mrs. Clara Bushey, who served for nearly three years, and Mrs. Julia Holtzworth have provided the same kind and efficient service."

Mrs. Holtzworth was re-elected as nurse at the same salary of \$1,500 per year plus \$120 for expenses.

430 Calls In Year
During the past year the report showed, the nurse made 430 calls and collected approximately \$400 for her services.

Mrs. Eberhart noted that the organization carries on its service through a grant of \$1,000 yearly from the Community Chest, plus the interest from \$2,900 in bonds plus the sums paid to the nurse by persons whom she aids.

Mrs. Buehr was named as chairman of a committee, to be selected by her, to revise the by-laws and constitution of the organization. Plans were made to hold quarterly instead of semi-annual meetings in the future.

Insurance Brings Changes
The organization voted to pay \$150 per month toward the phone bill of the civic nurse. It was pointed out that only by paying the business rate can the telephone be put in the name of the Civic Nursing Association and be given that listing with the operators. The business rate was listed as \$3.75, while the present rate of the phone in Mrs. Holtzworth's name is \$2.25 per month. The association will pay the difference.

Hospitalization insurance has caused a change in the work of the civic nurse, it was noted. Where most of her work previously involved care of patients who were bedfast for some time, now usually that type of patient goes to the hospital. While a large proportion of the care involves those ill at their homes, most of the work consists of giving "shots" and that type of work for patients who are convalescing from hospitalization.

The nurse is available, it was pointed out, to all in Gettysburg and its adjacent territory—the area covered by the Community Chest—to provide home nursing care. When a call is made the nurse leaves a rate card. Those who can afford to pay are asked to do so, to help the work. Those who cannot afford it are under no obligation to pay. Most of the work of the nurse during the past year came at the request of doctors who asked her to aid in the care of their patients.

OFFER SCHOOLS SURPLUS GOODS

Adams county schools again this year are being given the opportunity to purchase surplus war property at a cost of five cents a pound, plus transportation costs, Richard C. Lighter, director of surplus war property for the county announced today.

He urged schools to notify him of articles they would like to purchase under the school plan for securing surplus war materials as soon as possible. On October 19 a committee of school representatives will go to Indianapolis Gap to select the items requested by the various educational agencies in the county.

Here And There

News Collected At Random

If Eugene Sickles' resignation as fire marshal and health officer is accepted, Gettysburg will lose one of its most faithful and conscientious employees.

During his service as fire marshal, Mr. Sickles has sought to rid Gettysburg of the many fire hazards that have existed here for a long time. He has performed his duties without fear or favor and his painstaking efforts have been fruitful of beneficial gains which have been notable improvements in the community.

During his brief service as health officer, he has also served well. In promoting strict health rules, he has corrected an evil of long standing in garbage collecting vehicles, refuse receptacles and nuisances in the community. He has been persistent in his efforts to eliminate health nuisances and fire hazards regardless of where they exist.

A number of citizens are hopeful that Mr. Sickles may be prevailed upon to continue in his duties.

ASK CHURCHES TO OBSERVE PENNA. WEEK

A letter sent to all clergymen in the county today by the church committee for Pennsylvania Week, asked the priests and ministers to give recognition to Pennsylvania Week in services during the period.

The committee, comprising the Rev. Wallace E. Fisher, chairman, Rev. Clyde R. Brown, Rev. Fr. Anthony P. Kane and Rev. Henry B. Reiley noted:

"Properly, the major part of the responsibility for the celebration of Pennsylvania Week October 16-21 falls upon schools, industries, etc., but the church—with propriety—can and should participate also.

"Remembering that Pennsylvania was Penn's Holy Experiment, that religious freedom was broadly accomplished here before most colonies had escaped religious bigotry and that our state today is the seat of scores of different churches and sects ranging from Greek Orthodox and Roman Catholic and Presbyterian to the Friends and the "Plain People," we ought to take dignified notice of our state's stature.

"Therefore, we commend these possibilities to your thoughtful attention: a sermon which considers the significance of religious freedom in the 17th century and now in the 20th century; a sermon which considers the significance of Penn's advocacy of Christian brotherhood—its salutary impact on the colony's establishment and its need today; a sermon which calls the Christian's attention to his civic responsibilities in a free society; recognition of the above and other factors in the general or pastoral prayer; recognition of the above and other factors in your October 8 and 15 bulletins and weeklies; cooperation with your local schools in the presentation of suitable speakers, historical pageants, etc.

"Finally, we are confident that your good, Christian judgment and civic-mindedness will contribute to a memorable Pennsylvania Week in 1950."

Gardners Trucker Escapes Injury

The drivers of two trucks and an automobile escaped injury Friday in an accident at New Kingston, Pa.

State police reported that John Milton, West Chester, stopped his truck on the north side of the pike before making a left turn into the parking lot at the camp. He pulled out in front of a car driven by Ivan Sowers, Gardners R. 2, who was unable to stop. His car struck the left side of the truck. A truck following Sowers, operated by Robert W. Fink, York, went off the left side of the road and struck a gasoline sign.

Police estimated the damage to Sowers' car at \$600 and \$300 to Milton's truck. Fink's truck was damaged to the extent of \$40.

Tokyo, Sept. 30 (AP)—The Pusan radio reported at 7 p.m. tonight (5 a.m. EST) that the South Korean assembly today unanimously approved a message requesting the United Nations forces to cross the 38th parallel.

Tokyo, Sept. 30 (AP)—Artillery and planes carried the fight today to an estimated 100,000 Reds massing for defense of North Korea. South Korean troops awaited orders to cross parallel 38.

One Republic division already was at the 38th parallel on the east coast and three other South Korean divisions were within a quick march of it. Plans have been completed for a drive against the Red capital of Pyongyang, a South Korean army spokesman said.

100,000 Reds Concentrated

If the Republic's army chief of staff gives the word, the war will be carried into Red-held territory for the first time since Communist aggressors crossed it in their June 25 invasion of South Korea.

AP Correspondent Leif Erickson, from a U.S. Fifth Air Force plane, watched South Korean artillery shells burst on Red positions in hills along the artificial boundary.

B-29 light bombers Saturday swept over the border to Chorwon, reported headquarters of the Red army, to bomb and strafe an estimated 100,000 Communists believed to be concentrated there. Chorwon is 16 miles north of the border—but on the western side, 48 air miles north of liberated Seoul.

U.S. Troops Near Border

Northwest of Seoul, U.S. troops advanced within 24 miles of the 38th parallel. The troops, 187th airborne regimental combat team, sought to clean out Reds in the Kumpo peninsula between the Han river and the Yellow sea.

A U.S. Navy summary said a party from the British Cruiser Ceylon landed more than 100 miles northwest of Seoul on the island of Taechong, within 10 miles of the 38th parallel. The British reported the Reds had evacuated the island.

The Red radio withheld from North Koreans the news that the war is over in South Korea for the defeated Communist army. Instead, it reported "fierce street battles" in Seoul—where General MacArthur turned over civil control Friday to the Republic's president, Syngman Rhee. For the rest of Korea, the Red communique summarized: "On all fronts, units of the people's army continue to wage bitter battles against American troops."

The sound of battle still rang in the ears of Seoul's dazed citizens as they strove to resume normal living in the war-ravaged 500-year-old capital. AP Correspondent O. H. P. King said the thunder of guns sounded close to the northeast for two hours Saturday morning.

GARDENERS CALL ON TIMES FARM EDITOR

With a busy harvest season now drawing toward its close for this year, numerous Adams county gardeners are realizing the benefits derived from advice received from Dan P. Van Gorder. The Gettysburg Times agricultural editor.

One Times reader had trouble with his brussels sprouts, during the dry weather in late August. "I planted some and set them out, and they are doing fine in spite of the dry weather, except that they don't seem to get little heads," he wrote Mr. Van Gorder.

"What to do" in this case was supplied in a personal letter to the Times reader.

Other readers have asked for instructions on strawberry planting, care of nut trees, how to grow cyclamens indoors and on a multitude of horticultural and agricultural subjects.

A coupon published in The Gettysburg Times offering free a copy of Van Gorder's sweet corn ear worm control directions brought many requests.

"This simple remedy," wrote Van Gorder, in reply to the queries, "is not only inexpensive and effective, but is entirely safe and free of the dangers usually incurred when poisons are used for this purpose."

Mr. Van Gorder is ready to answer any and all questions relating to these and similar subjects, if the requests are directed to him by letter, with a three cent stamp enclosed for return postage, to The Gettysburg Times agricultural editor, Box 1528, Washington 13, D. C.

"If there are any questions you wish to ask on these or other farm, orchard, garden and lawn subjects, continue to call on us whenever we can assist you," Van Gorder writes those who seek his advice.

Despite Errors

An itinerant fruit picker who was booked, when he was arrested by borough police on a disorderly conduct charge Thursday as Otto Martin, of Davenport, Iowa, insisted to Justice of the Peace John H. Basehorne Friday that he was "Horton" instead of "Martin," and that his home was in Massachusetts instead of Iowa.

The "mistake" was rectified on the record, but it made no difference in the disposition of the case. "Horton" got five days in the Adams county jail in default of a fine of \$5 and costs.

Harrisburg, Sept. 30 (AP)—Pennsylvania school officials were told by the state's top public school officer that "education is a purchasable commodity."

"That we pledge ourselves neither by word or deed to contribute to fear or hatred, being aware that the present emergency challenges our moral as well as physical courage.

"That we urge all like-minded citizens to join us in this resolution."

Unbeaten Carlisle Nips GHS 13-0 Before 4,000; Injuries Prove Costly To Warriors

Gettysburg high school's football team was knocked out of the unbeaten ranks here Friday evening when a smooth performing and hard charging Carlisle eleven gained a hard earned 13-0 South Penn conference victory before an overflow crowd of 4,000 fans. The victory was the third in a row for the undefeated Thundering Herd.

Coach Howard Shoemaker and Ross Sachs were forced to dig deep into their reserve strength because of injuries received during the week. Their ace ball carriers, Wayne Tonsel and Bobby Miller made but brief appearances while Bill Williams, punting and line cracking ace, suffered a pulled leg tendon in the second period which shelved him for the remainder of the game. Several other players operated with minor injuries.

Carlisle moved from the Gettysburg 48 to score early in the second quarter. Sam Alexander circled left end for a first down on the 25 and then Dick Darr went around right end to reach the two. On the next play Darr cracked through the line. Larry Shenk covered on a placement.

Long Pass Clicks
A beautiful executed forward pass with Jack Hawbaker hurling the ball 50 yards to Richwine who caught the ball on his finger-tips on the dead run was good for a first down on the 1 midway in the third period and on the next play Darr plunged over. Shenk's placement was wide.

The Warriors fought back gamely throughout the remaining part of the game and forced Carlisle to take the defense throughout much of the final period through an aerial barrage.

Early in the first period Carlisle reached the Gettysburg 35 on a pass from Hawbaker to Gelling but "Soapy" Davis halted the threat by pouncing on a fumble on the same yard line.

The Warriors were soon forced to punt. Hawbaker returning to his own 38. Darr then got around right end for a first down on the locals' 38 but Gettysburg braced and Darr punted out on the 11. Bill Williams secured the Warriors' initial first down when he raced through right tackle to the 23. The attack bogged down and Williams kicked to his own 48 where the ball was downed by Paul Staley and from that point the Herd launched its first touchdown drive.

Davis Intercepts
Shortly after Carlisle had secured its TD in the second quarter, an intercepted pass on the locals' 28 put the Warriors in hot water but again Davis came to the rescue by snaring a Hawbaker pass and returned to his 31. Two plays later Williams was forced out and Goodermuth got off a short kick to the Carlisle 47. A minute later Sam Altland pounced on a Carlisle fumble on the Gettysburg 48. Singley passed to Dick Harriel for a first down on the visitors' 37 but Carlisle braced to take over on the 42. Darr soon got off a punt to Buzz Hoffman on the 5 who returned to the 14. On the next play Bill Bucklew almost got away on an end run but was downed on his own 31 and two plays later the half ended.

After Carlisle had scored its second touchdown, the Warriors took to the air almost completely when on the attack the remainder of the game.

Early in the last period Gettysburg took the ball on its own 14 on a punt. Bill Singley then swung into action with a fine passing attack that netted three straight first downs to reach the Carlisle 34 on a pass to Jim Skinner and a pair to Harriel. There Carlisle batted down four more passes to take over. Soon the Herd was forced to kick again when the Warriors taking over on their 35. Passes to Harriel and Dick Miller put the ball on the 46. Two more to Eberhart and Miller moved the leather to the visitors' 40. Singley picked up 14 yards on two running plays but again four aerials were batted to the ground with Carlisle taking the ball and the game ending a few seconds later.

Hanover Next Friday
Carlisle's hard-charging line was greatly responsible for its victory while its backs were given fine interference consistently. Clopper, Stull, Gelling and Darr played particularly well. Each Gettysburg participant is also to be commended for his courageous play in the face of being almost robbed of the entire regular ball-carrying group by injuries.

Next Friday the Warriors play their first game away from home when they meet Hanover high on the latter's field.

YANKS CLINCH SERIES BERTH; NATIONAL LOOP YET UNDECIDED

By RALPH RODEN
(Associated Press Sports Writer)
The Yankees are "in" and the Brooklyn Dodgers are trying desperately to make it a greater New York World Series.

The Yanks, who were idle, backed into their second straight American league championship yesterday as the Cleveland Indians trounced Detroit, 12-2, to eliminate the runner-up Tigers. But the dauntless Dodgers are the talk of the baseball world.

Faced with sudden death, the Brooks came from behind in both ends of a doubleheader and beat the Boston Braves, 7-5 and 7-6, to prolong their pennant chances.

Dodgers Meet Phils Now
A loss in either game and that old familiar cry, "wait until next year," would have resounded throughout Flatbush but instead, the faithful are shouting the praises of a team that refused to quit.

The Dodgers now meet the first-place Phils, who have lost seven of their last nine games, in a two-game series that opens at Ebbets Field today. The Brooks trail the Whiz Kids by two games and must sweep the series to stay "alive." Should the Dodgers take both games from the Phils, they will wind up the regular season Sunday in a tie. In that event, a best-of-three playoff series will be staged to decide the Yanks' World Series foe.

League President Ford Frick said last night that no playoff announcement regarding sites and dates will be made until after today's game and then only if Brooklyn wins.

Dodger Manager Burt Shotton has selected Erv Palica (12-8) to go after the Phils today. Eddie Sawyer of the leaders will not decide until shortly before game time. It will be either Bob Miller (11-5), Bubba Church (8-6), or Russ Meyer (9-11), with Miller looming as the best bet.

Came From Behind
In the opener, Max Surkont had the Dodgers beaten, 5-2, going into the eighth when his infield collapsed and permitted the Dodgers to score five unearned runs and win the game.

The Dodgers also spotted the Braves an early lead in the finale and entered the sixth inning trailing, 6-3. But they climbed on Vern Bickford, who failed for the sixth time to win his 20th game, for three runs and tied the score.

Jackie Robinson led off the seventh inning with his 14th home run to knock out Bickford and win the game.

Bob Lemon snuffed the life out of the Tigers. The big Cleveland right-hander stopped Detroit on six hits to post his 23rd victory, top output in the major leagues. In the only other major league games the St. Louis Cardinals whipped the Chicago Cubs, 5-1, and the Boston Red Sox edged Washington, 7-6.

Sports Roundup

By HUGH FULLERTON, JR.
New York, Sept. 30 (P)—An observer close to the scene notes an increasing tendency among colleges to take football television arrangements out of the hands of the athletic departments. . . . The fact that Notre Dame's pre-game programs this fall will stress the educational and "character building" work of the institutions looks like another indication of the same thing. . . . This probably means that if the athletic directors should decide TV is harmful to their own or their neighbors' gate receipts, they'll be blithely ignored until the damage is done. . . . Of course, they might get enough TV dough to forget about the turnstiles, but there'd still be the pressure to produce a winning team. . . . That "double-wing-T" formation that has been bobbing up here and there this season is the same thing that Andy Kerr outlined to the 1949 football coaches' convention and tried out at Lebanon Valley last fall. Andy calls it "a very satisfactory formation."

SPORTSMENTION
Bob McCall, who plays center for Colgate against Army this afternoon, was a finalist in the NCAA golf championship last spring. . . . And Mike Souchak, Duke end, is star of the golf team tutored by line coach Dumpy Hagler. . . . Rumor mill has the Tigers bidding for Sherm Lollar, the Browns catcher.

ON THE SQUARE
The Detroit Lions footballers have a nodding acquaintance with a sprightly four-year-old Miss named Vicki, who lives near the club's offices. . . . She knows all the Athletics by name and they figured she was just too shy to talk to them. . . . But they've begun to wonder about that since guard Joe Soboleski overheard Vicki telling her dolls: "Now, children, be good and I'll take you over to see Leon Hart and all the other square shapes."

END OF THE LINE
Pitt's football team already has lost three fullbacks to the marines and if all the volunteer reservists are called up, the rest of the backfield and part of the No. 1 line will go. . . . Saddest tale from the Louisville Charles fight was told by an out-of-town scribe who had to telephone an advance story home. . . . "I went for the other champs who had tried comebacks," he explained. "I had Fitzsimmons, Corbett, Jefferies and Dempsey—and, you know, that guy on the desk made me spell every name."

Unbeaten Carlisle Nips GHS 13-0 Before 4,000; Injuries Prove Costly To Warriors

Gettysburg high school's football team was knocked out of the unbeaten ranks here Friday evening when a smooth performing and hard charging Carlisle eleven gained a hard earned 13-0 South Penn conference victory before an overflow crowd of 4,000 fans. The victory was the third in a row for the undefeated Thundering Herd.

Cochman Howard Shoemaker and Ross Sachs were forced to dig deep into their reserve strength because of injuries received during the week. Their ace ball carriers, Wayne Tonsel and Bobby Miller made but brief appearances while Bill Williams, punting and line cracking ace, suffered a pulled leg tendon in the second period which shelved him for the remainder of the game. Several other players operated with minor injuries.

Carlisle moved from the Gettysburg 48 to score early in the second quarter. Sam Alexander circled left end for a first down on the 25 and then Dick Darr went around right end to reach the two. On the next play Darr cracked through the line. Larry Shenk converted on a placement.

Long Pass Clicks

A beautiful executed forward pass with Jack Hawbaker hurling the ball 50 yards to Richwine who caught the ball on his finger-tips on the dead run was good for a first down on the 1 midway in the third period and on the next play Darr plunged over. Shenk's placement was wide.

The Warriors fought back gamely throughout the remaining part of the game and forced Carlisle to take the defense throughout much of the final period through an aerial barrage.

Early in the first period Carlisle reached the Gettysburg 35 on a pass from Hawbaker to Gelling but "Soapy" Davis halted the threat by pouncing on a fumble on the same yard line.

The Warriors were soon forced to punt. Hawbaker returning to his own 38. Darr then got around right end for a first down on the locals' 38 but Gettysburg braced and Darr punted out on the 11. Bill Williams secured the Warriors' initial first down when he raced through right tackle to the 23. The attack bogged down and Williams kicked to his own 48 where the ball was downed by Paul Staley and from that point the Herd launched its first touchdown drive.

Davis Intercepts

Shortly after Carlisle had secured its TD in the second quarter, an intercepted pass on the locals' 28 put the Warriors in hot water but again Davis came to the rescue by snaring a Hawbaker pass and returned to his 31. Two plays later Williams was forced out and Goodermuth got off a short kick to the Carlisle 47. A minute later Sam Altland pounced on a Carlisle fumble on the Gettysburg 48. Singley passed to Dick Harriel for a first down on the visitors' 37 but Carlisle braced to take over on the 42. Darr soon got off a punt to Buzz Hoffman on the 5 who returned to the 14. On the next play Bill Bucklew almost got away on an end run but was downed on his own 31 and two plays later the half ended.

After Carlisle had scored its second touchdown, the Warriors took to the air almost completely when on the attack the remainder of the game.

Early in the last period Gettysburg took the ball on its own 14 on a punt. Bill Singley then swung into action with a fine passing attack that netted three straight first downs to reach the Carlisle 34 on a pass to Jim Skinner and a pair to Harriel. There Carlisle batted down four more passes to take over. Soon the Herd was forced to kick again with the Warriors taking over on their 35. Passes to Harriel and Dick Miller put the ball on the 46. Two more to Eberhart and Miller moved the leather to the visitors' 40. Singley picked up 14 yards on two running plays but again four aeriels were batted to the ground with Carlisle taking the ball and the game ending a few seconds later.

Hanover Next Friday

Carlisle's hard-charging line was greatly responsible for its victory while its backs were given fine interference consistently. Clopper, Stull, Gelling and Darr played particularly well. Each Gettysburg participant is also to be commended for his courageous play in the face of being almost robbed of the entire regular ball-carrying group by injuries.

Next Friday the Warriors play their first game away from home when they meet Hanover high on the latter's field.

YANKS CLINCH SERIES BERTH; NATIONAL LOOP YET UNDECIDED

By RALPH RODEN
(Associated Press Sports Writer)

The Yankees are "in" and the Brooklyn Dodgers are trying desperately to make it a greater New York World Series.

The Yankees, who were idle, backed into their second straight American league championship yesterday as the Cleveland Indians trounced Detroit, 12-2, to eliminate the runner-up Tigers. But the dauntless Dodgers are the talk of the baseball world.

Faced with sudden death, the Brooks came from behind in both ends of a doubleheader and beat the Boston Braves, 7-5 and 7-6, to prolong their pennant chances.

Dodgers Meet Phils Now
A loss in either game and that old familiar cry, "wait until next year," would have resounded throughout Flatbush but instead, the faithful are shouting the praises of a team that refused to quit.

The Dodgers now meet the first-place Phils, who have lost seven of their last nine games, in a two-game series that opens at Ebbets Field today. The Brooks trail the Whiz Kids by two games and must sweep the series to stay "alive."

Should the Dodgers take both games from the Phils, they will wind up the regular season Sunday in a tie. In that event, a best-of-three playoff series will be staged to decide the Yanks' World Series foe.

League President Ford Frick said last night that no playoff announcement regarding sites and dates will be made until after today's game and then only if Brooklyn wins.

Dodger Manager Burt Shotton has selected Ery Palica (12-8) to go after the Phils today. Eddie Sawyer of the leaders will not decide until shortly before game time. It will either be Bob Miller (11-5), Bubba Church (8-6), or Russ Meyer (9-11), with Miller looming as the best bet.

In the only other major league games the St. Louis Cardinals whipped the Chicago Cubs, 5-1, and the Boston Red Sox edged Washington, 7-6.

New York, Sept. 30 (AP)—College football's three best winning streaks of the present are in jeopardy today but it seems a sure bet that all three will be a notch longer by night fall.

North Carolina is a 21-point underdog to Notre Dame, unbeaten in 38 straight games. The game will be played at South Bend and will give the Notre Dame students their first official glimpse of coach Frank Leahy's rebuilt machine.

Sports Roundup

By HUGH FULLERTON, JR.

New York, Sept. 30 (AP)—An observer close to the scene notes an increasing tendency among colleges to take football television arrangements out of the hands of the athletic departments. . . . The fact that Notre Dame's pre-game programs this fall will stress the educational and "character building" work of the institutions looks like another indication of the same thing. . . .

This probably means that if the athletic directors should decide TV is harmful to their own or their neighbors' gate receipts, they'll be blithely ignored until the damage is done. . . . Of course, they might get enough TV dough to forget about the turnstiles, but there'd still be the pressure to produce a winning team. . . .

That "double-wing-T" formation that has been bobbing up here and there this season is the same thing that Andy Kerr outlined to the 1949 football coaches' convention and tried out at Lebanon Valley last fall. Andy calls it "a very satisfactory formation."

SPORTSMENTION
Bob McCall, who plays center for Colgate against Army this afternoon, was a finalist in the NCAA golf championship last spring. . . . And Mike Souchak, Duke end, is star of the golf team tutored by line coach Dumpy Hagler. . . . Rumor mill has the Tigers bidding for Sherm Lollar, the Browns catcher.

ON THE SQUARE

The Detroit Lions footballers have a nodding acquaintance with a sprightly four-year-old Miss named Vicki, who lives near the club's offices. . . . She knows all the Athletics by name and they figured she was just too shy to talk to them. . . . But they've begun to wonder about that since guard Joe Soboleski overheard Vicki telling her dolls: "Now, children, be good and I'll take you over to see Leon Hart and all the other square shapes."

END OF THE LINE

Pitt's football team already has lost three fullbacks to the marines and if all the volunteer reservists are called up, the rest of the backfield and part of the No. 1 line will go. . . . Sidest tale from the Louis-Charles fight was told by an out-of-town scribe who had to telephone an advance story home. . . . "I went for the other champs who had tried comebacks," he explained. "I had Fitzsimmons, Corbett, Jefferies and Dempsey—and, you know, that guy on the desk made me spell every name."

Today's Talk

By GEORGE MATTHEW ADAMS

RESPONSIBILITY

None of us amount to much until we are shouldered with responsibility. Put anyone in a responsible position and the mettle of such a one is at once tested and tried. Responsibility creates growth. Every day we read in our newspaper of men and women who have been given great positions of responsibility in our Government because they have measured up in more humble positions.

I have among my friends many a newspaper publisher who was once but a newsboy for that paper. Responsibility kept ripening them, so step by step they climbed and rose to the top. It always works where there are a will and a purpose.

Many a President of the United States has risen from obscurity to his high office, where, with all that tremendous responsibility he has grown and matured and become great. Lincoln, Garfield, Cleveland, as examples.

A friend of mine once told me the story of a great lawyer, who became the attorney for J. J. Hill, the railroad builder of the West. He came to America as an immigrant. His first job was shoveling snow in the streets of New York City—and he froze his feet at the job! But responsibility was given him and he steadily rose at power, with the confidence of those for whom he served.

The wise employer keeps his eyes upon those who handle responsibility—testing them, and encouraging their rise by giving them more and more responsibility. Few of us know what we can do until we attempt what we think we can do. Good advice is never to dodge responsibility. You never know where it may lead you.

I recently listened to an interesting story of a rookie baseball player. His manager took great interest in him, and put an old expert to train him. This season he has blossomed out as a genuine "star." He is but 21 years old—but he may figure in the coming World Series. Apparently he welcomed the responsibility and looks forward with confidence so as not to disappoint those who believed in him.

Just Folks

IT COULD BE WORSE

"It must be hard," I stopped to say,

"To have to work from day to day."

"It could be worse," the woman said,

"I might be out of work instead."

"It could be worse, I might be ill

And someone else my place would fill,

For were this task not done by me

My children all would hungry be.

"Of course, it could be better, too,

But this is what I have to do.

Since wishes vain won't line the purse,

It helps to think, it could be worse."

Brave woman, toiling day by day,

You sent me braver on my way.

When I have trouble to rehearse

I'll stop to think: "It could be worse."

REG. U.S. PAT. OFF.
by FREDERICK C. RUSSELL
Member S.A.E.

As every motorist learns sooner or later, it's a great life if you don't week-end.

Carbon Can Be Checked

How you drive and where has a lot to do with how much carbon the engine will collect. I have in mind an engine at 60,000 miles which has had two valve and carbon jobs, whereas another motor of the same make at 60,000 has never had the head off. The latter doesn't ping, has good compression. The answer lies in the fact that it is used differently. All winter it has the benefit of a heated garage. Its driver has it on the open road much more than city streets. The engine is almost always operating at an efficient temperature. Also the driver makes it a point to drive up hills as often as possible, this serving to keep the percentage of crankcase dilution to a low point. Oil is changed more frequently than for most motors. The owner also keeps a close check on the automatic choke, making sure that it isn't sluggish opening when the motor warms up. Ignition is kept in good condition, and the carburetor's mixture is neither too rich nor too lean. That also calls for occasional checking of the fuel level.

All Tied In Together

How integrated your automobile can be is best illustrated by the relation between the fuel pump of many cars and the way the engine idles. Where pumps also have a vacuum pump for boosting the windshield wiper action a broken diaphragm will lean out the mixture going to one or two of the cylinders. The effect is to make idling extremely rough and to affect low speed operation in high gear. Just like a sticky valve the engine will back in gear, and idling will often be so rough that you'd swear two cylinders were missing. Best tip-off to this condition is the action of the windshield wipers which will slow down when you accelerate on a hill.

Two To Remember

For the benefit of the motorist who has been doing some major car work, or is about to, let it be said that if both rear axles have been removed and one is longer than the other, the answer is that the longer one should be on the right hand side of the car.

Carrying the oil level low is an especially dangerous indulgence when the car is traveling in the mountains. Not only is oil consumption likely to be higher under such conditions, but tilting of the car may cause the oil pump's intake to be above the oil level at certain times.

Mechanic Joe Speaking:

"It's interesting and true that where a car has not had sufficient service on one of its major parts it is quite likely to need other attentions the owner least expects. Neglect of one unit is quite likely to be just part of a lot of general neglect. If breaker points have not been replaced in a long time I have learned to know that the spark plugs will also be in bad shape, and that the air cleaner needs oil, the carburetor float level needs checking and the automatic choke heat tube is clogged. I never check a situation like this without finding the fuel pump in bad shape and the tappets in need of adjusting. It's a smart motorist who realizes that

the whole thing ties in together."

The whole thing ties in together.

fully. I know routes where it is best to drop into a lower gear only when going in one side of a hill.

It Would Help Some

My friends are telling of a neighbor who was told that the clogged radiator on his car would require about a day's work in the shop. Returning to the shop in the late afternoon he found the radiator had been cleaned and the car was ready to go.

(Continued on Page 6)

One of the fallacies of motoring is to assume that the grades will be the same going over a route in the opposite direction. Nothing is further from the truth. It means that you must be careful not to think the motor is running better one way than another or that the brakes do not need to be watched so care-

fully. I know routes where it is best to drop into a lower gear only when going in one side of a hill.

Today's Talk

By GEORGE MATTHEW ADAMS

RESPONSIBILITY
None of us amount to much until we are shouldered with responsibility. Put anyone in a responsible position and the mettle of such a one is at once tested and tried. Responsibility creates growth. Every day we read in our newspaper of men and women who have been given great positions of responsibility in our Government because they have measured up in more humble positions.

I have among my friends many a newspaper publisher who was once but a newsboy for that paper. Responsibility kept ripening them, so step by step they climbed and rose to the top. It always works where there are a will and a purpose.

Many a President of the United States has risen from obscurity to his high office, where, with all that tremendous responsibility, he has grown and matured and become great. Lincoln, Garfield, Cleveland, as examples.

A friend of mine once told me the story of a great lawyer, who became the attorney for J. J. Hill, the railroad builder of the West. He came to America as an immigrant. His first job was shoveling snow in the streets of New York City—and he froze his feet at the job! But responsibility was given him and he steadily rose at power, with the confidence of those for whom he served.

The wise employer keeps his eyes upon those who handle responsibility—testing them, and encouraging their rise by giving them more and more responsibility. Few of us know what we can do until we attempt what we think we can do. Good advice is never to dodge responsibility. You never know where it may lead you.

I recently listened to an interesting story of a rookie baseball player. His manager took great interest in him, and put an old expert to train him. This season he has blossomed out as a genuine "star." He is but 21 years old—but he may figure in the coming World Series. Apparently he welcomed the responsibility and looks forward with confidence so as not to disappoint those who believed in him.

Just Folks

IT COULD BE WORSE
"It must be hard," I stopped to say,

"To have to work from day to day."

"It could be worse," the woman said.

"I might be out of work instead."

"It could be worse. I might be ill And someone else my place would fill.

For were this task not done by me My children all would hungry be.

"Of course, it could be better, too. But this is what I have to do. Since wishes vain won't line the purse,

It helps to think, it could be worse."

Brave woman, toiling day by day, You sent me braver on my way. When I have trouble to rehearse I'll stop to think: "It could be worse."

Riding with Russell
REG. U.S. PAT. OFF.
by FREDERICK C. RUSSELL
Member, S.A.E.

As every motorist knows sooner or later, it's a cruel life if you don't

week-end.

Carbon Can Be Checked

How you drive and where has a lot to do with how much carbon the engine will collect. I have in mind an engine at 60,000 miles which had two wire and carbon jobs, whereas another motor of the same make at 60,000 has never had the head off. The latter doesn't ping, has good compression. The answer lies in the fact that it is used differently. All winter it has the benefit of a heated garage. Its driver has it on the open road much more than city streets. The engine is almost always operating at an efficient temperature. Also the driver makes it a point to drive up hills as often as possible, thus serving to keep the percentage of crankcase dilution to a low point.

Oil is changed more frequently than for most motors. The owner also keeps a close check on the automatic choke, making sure that it isn't sluggish opening when the motor warms up. Ignition is kept in good condition, and the carburetor's mixture is neither too rich nor too lean. That also calls for occasional checking of the float level.

All Tied In Together
How integrated your automobile can be is best illustrated by the relation between the fuel pump of many cars and the way the engine

operates. Where pumps also have a vacuum pump for boosting the windshield wiper action a broken diaphragm will lean out the mixture going to one or two of the cylinders. The effect is to make idling extremely rough and to affect low speed operation in high gear. Just like a sticky valve the engine will buck in gear, and idling will often be so rough that you'd swear two cylinders were missing. Best tip-off to this condition is the action of the windshield wipers which will slow down when you accelerate on a hill.

Two To Remember
For the benefit of the motorist who has been doing some major car work, or is about to, let it be said that if both rear axles have been removed and one is longer than the other, the answer is that the longer one should be on the right hand side of the car.

Carrying the oil level low is an especially dangerous indulgence when the car is traveling in the mountains. Not only is oil consumption likely to be higher under such conditions, but tilting of the car may cause the oil pump's intake to be above the oil level at certain times.

Mechanic Joe Speaking:
"It's interesting and true that where a car has not had sufficient service on one of its major parts it is quite likely to need other attention. The owner least expects. Neglect of one unit is quite likely to be just part of a lot of general neglect. If breaker points have not been replaced in a long time I have learned to know that the spark plugs will also be in bad shape, and that the air cleaner needs oil, the carburetor float level needs checking and the automatic choke heat tube is clogged. I never check a situation like this without finding the fuel pump in bad shape and the tappets in need of adjusting. It's a smart motorist who realizes that

the whole thing ties in together. One of the fallacies of motorists is to assume that the grades will be the same some day a route in the opposite direction. Nothing is further from the truth. It means that you must be careful not to think the motor is running better one way than another or that the brakes do not need to be watched so carefully. I know routes where it is best to step into a lower gear only when on one side of a hill.

It Would Help Some
My friends are telling of a neighbor who was told that the clogged carburetor of his car would require about a day's work in the shop. Re- turning to the shop in the late afternoon (Continued on Page 6)

Riding With Russell

(Continued from Page 4)

ernon he saw his car standing outside, and being in a hurry, got into it and started for home. The drive was not long, but he didn't think the engine ran very well. Later he drove a short distance to dinner and this time noticed that the motor was up to its old trick of running hot. So back he went to the shop the next morning to raise the roof.

There, however, he was assured everything would shortly be all right. All the car needed was its radiator!

Did You Know

That the better a car rides the more chance there is of the front end needing more frequent re-alignment? This is due to the fact that you drive faster over rough roads without appreciating what this is doing to the front end.

That there is going to be a lot of cylinder head gasket leakage because of higher compression, especially where engines have a power boost only with a high compression head? Engines then operate at a higher temperature, the head being more likely to warp if the motor is allowed to overheat.

Don't Say "High Test"

Attendants at filling stations con-

tinued to ask if you want "high test" and millions of motorists do not question the accuracy of the query, but the fact remains that they do not sell high test gasoline at filling stations. You can buy premium gas with a higher octane rating than the regular gas, but it isn't high test.

Gasoline of the high test variety is more volatile than that which can be used effectively in the modern engine. Of course all gas is better in many ways than it used to be, but there's a limit to its volatility. Beyond a certain point it becomes so ready to go into gaseous form that it bubbles too freely in the heated lines, the fuel pump and carburetor, and forms vapor lock. The extent to which fuel can be raised in antiknock quality, however, seems to be limited largely by the legal limit on the amount of lead that can be added per gallon. Fuel can be given higher octane rating by refining processes, and some of the best of it is, but there's a natural limit here. That limit is the risk of having the fuel become too volatile.

Secret of Good Waxing

I have it straight from the makers of paste wax that the best job is had by making sure the car's finish is very clean and well polished first. Too many motorists wax over dirt and traffic film. Polish should be used sparingly, but its use before a waxing will make the latter far glossier and longer lasting. It's a
